Eastside hockey manager online

Eastside Hockey Manager is the most realistic, in-depth and immersive simulation of hockey management available, giving you the chance to manage club or country in any of the world's leading nations playing hockey. EHM allows you to take full control of your list – you decide who to sign, who to trade and who to draw up. You put together the perfect coaching team and then, with everything in place, you can choose to employ a head coach to guide your team behind the bench, or take control of coaching roles yourself. Whatever you choose, you can follow the action 'live' or watch the highlights of the game later through the realistic 'top down' 2D game engine. You've always known you have what it takes to bring your franchise to hockey glory, and with the Eastside Hockey Manager you have a chance to prove it. Sign in to add this item to your wish list, follow it or tag it as uninterested Eastside Lights The Lamp with First Official Data PackSports Interactive has teamed up with the UK's Elite Ice Hockey League (EiHL) to bring official packages for data, logos and faces to Eastside Hockey Manager, all of which are now available in the Steam Workshop. Fans of Elite League teams can now take control like never before with an authentic EiHL feel. Eastside Hockey Manager (EHM) emerged from Steam's Early Access program and is now available for full release. EHM offers fans the most realistic, in-depth and immersive simulation of hockey management available, giving them the chance to manage a club or country in any of the world's top nations. EHM allows you to take full control of your list – you decide who to sign, who to trade and who to draw up. You put together the perfect coaching team and then, with everything in place, you can choose to employ a head coach to guide your team behind the bench, or take control of coaching roles yourself. Whatever you choose, you can follow the action 'live' or watch the highlights of the game later through the realistic 'top down' 2D game engine. To mark your move from Early Access to full availability, EHM now offers a number of new and updated features, including: a greater number of playable national leagues and cup competitions; Steam Workshop integration; Additional screen resolutions and a multiplayer option that allows up to 30 players to compete against each other and many more improvements inspired by user feedback. Dynamic 2D Game EngineFollow the action in your own games or those of your rivals through the advanced 'top-down' 2D game engine, which incorporates state-of-the-art physical modeling (including realistic deviations and shooting blocking) and convincing player AI. There's even a zoom mode for those who want to get closer to the action. Realistic Contemporary Game WorldA detailed the world of games where can manage and train in more than 30 playable home leagues and cup competitions from around the world, each of which features updated rules alloy structures. Multiplayer ActionUp up to 30 players can compete face-to-face in the same world of online gaming. Steam Workshop IntegrationEHM includes support for the inclusion of user-generated content (such as databases and custom graphics) through the easy-to-use Steam Workshop system. Complete list managementComplete control over the construction and management of your roster, including everything from offering contracts to scouting, drafting promising players and negotiating with other teams. Complete control of non-player personnel management, including the ability to sign coaches, scouts and physios. Total Tactical ControlCoaches can get the best out of their list by creating and managing detailed tactics that can be configured for an entire team, an individual unit or even a single player. Realistic trade negotiations Managers can measure interest in negotiating bids from their opposite numbers, as well as get feedback from their own assistant. Each team has its own needs and some are ready to unload prospects for that key veteran who makes them a true contender, while others may be looking to move high-performance veterans in order to rebuild through the draft. Intuitive user interfaceThe centralized navigation bar makes management easier and more intuitive with all the key management controls built into the main menu bar. Improved player progression Players develop and age naturally, with new players arriving through junior systems and older players eventually retiring or pursuing non-player careers. In addition, role-based attribute modeling makes players more realistic and more varied. International ManagementEHM includes the opportunity to manage international teams (including the U-20) in all major tournaments – and many less high-level competitions as well. Database importDatabaseformat allows you to import up-to-date lists generated by the user and even historical starting databases (created for earlier versions of EHM). And much, much more..... including detailed financial modeling of player contracts, salary caps and player budgets; a nation overview screen that allows you to see all major leagues, clubs and players for each country; player/non-player profiles; an option to start the game with a fantasy draft; All-star games with skill competitions and many, many other features.
